In addition to up-to-date news with a special focus on the technical and after-sales areas, the magazine includes the established workshop catalogue, an excellent venue for suppliers to present their products. This online service offer is complemented by technological, legal and financial advice for workshop managers. A range of useful tools, such as the extended maintenance interval calculator, provide guidance concerning when to change to expensive long-life oils. Lastly, a number of discussion forums are available and older new stories can be found in the archive.
