

VALUEpilot, der schnell Werte ermittelt

The screenshot shows the 'AUTOonline - VALUEpilot' interface. At the top, there is a search bar with 'Mercedes Benz E 430 205' and '15 Fahrzeuge gefunden.' Below this is a table of search results with columns: von, bis, Motor, Schaltungs-Art, Schaltung, Kraftstoffart, Türen, HSN, TSN, Neupreis (brutto), and DAT-Europa-Code. The table lists four entries for Mercedes-Benz E-Class cars from 1997 to 2003.

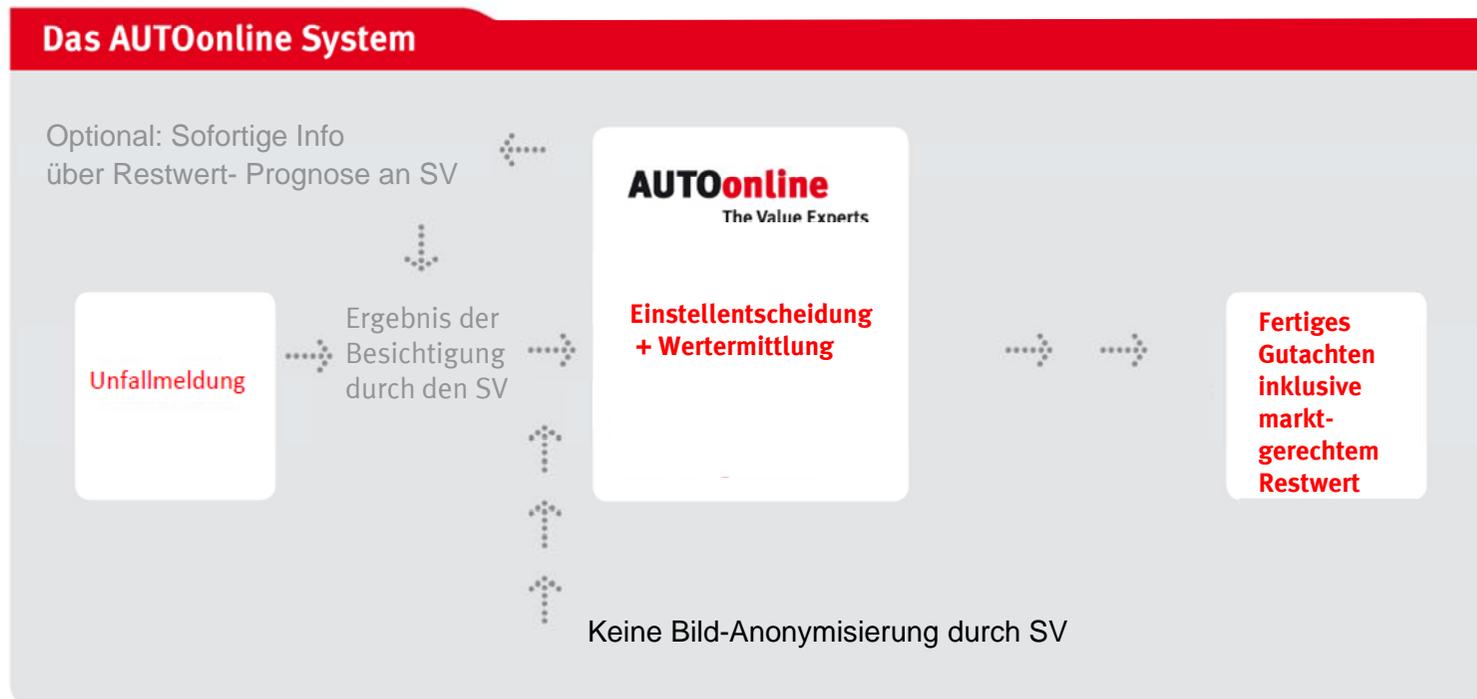

Below the table, there are input fields for 'Eingaben' (Initial registration, Mileage, etc.) and a 'WBW Analyse' graph for a Mercedes-Benz BM 210 E-Class. The graph plots 'WBW' (Wear and Tear) against 'Alter' (Age) from 0 to 20 years. A red vertical line marks 'Alter: 7 Jahre' and a red horizontal line marks 'WBW: 14.991,04 €'. To the right of the graph is a 'Wirtschaftlichkeit' (Economic Efficiency) table with values for Neupreis, WBW-Analyse, Restwert-Prognose, etc.

Four green callout boxes highlight key features:

- Modell-Auswahl**: Points to the search results table.
- Erstzulassung + Rep-Kosten**: Points to the input fields for initial registration and repair costs.
- Abwertungskurve je Modell**: Points to the depreciation curve graph.
- WBW-Korridor RW-Prognose Wirtschaftlichkeit**: Points to the economic efficiency table.

Automatische RW-Ermittlung für SV

1. Besichtigung durch den SV
2. Direkte Weiterleitung aller SV-Daten an AUTOonline
3. Objektive, fallspezifische Einstell-Entscheidung nach Restwertprognose
4. Effiziente Restwert-Ermittlung ohne Zeitverlust
