### **Art.5 Short-term derogations**

Derogations to the driving restrictions laid down in articles 1 and 2 above, so-called short-term prefectural derogations, may be granted for

### **Art.6 Long-term derogations**

Derogations to the driving restrictions laid down in articles 1 and 2 above, so-called long-term prefectural derogations, may be granted for

Authorisations for the transport operations indicated in point 1 are issued by the Prefect of the department of loading (or of entry into France) subject to the approval of the Prefect of the department of destination (or of exit from France).

Authorisations for the transport operations indicated in point 2 are issued by the Prefect of the department of departure.

Long-term authorisations are issued for a maximum of one year.

### **Art.7 Lifting of restrictions - border zones**

In order to mitigate the consequences of the lack of harmonisation of traffic bans with those of neighbouring states, the Prefects of border departments have the possibility of granting derogations to the driving restrictions foreseen in articles 1 and 2 above.

### **Art.8 Lifting of restrictions - exceptional circumstances**

In the case of exceptional circumstances, if the vehicles mentioned in article 1 have been immobilised during the 12 hours preceding the beginning of a period of restriction foreseen in articles 1, 2 or 3 above, the departmental Prefects may, in coordination with the Prefects of the neighbouring departments, authorise them to travel during all or part of the period of restriction within a specific zone.

### **Art.9 Conditions of use of derogations**

For any vehicle granted a permanent derogation or a short or long-term individual prefectural derogation, the person in charge of the vehicle must be able to prove to the officers responsible for road traffic checks that the transport operation complies with the provisions of the derogation concerned.

The authorisation must be kept on board the vehicle. For it to be valid, it must be completed by the holder prior to the vehicle's departure, indicating the date of the transport operation and the vehicle's registration number.

An authorisation may be withdrawn by the issuing authority if the holder does not observe its terms of use or has provided erroneous information in order to obtain it.

If the tractor element of a combined vehicle is driven without the semi-trailer, the weight limit given above applies to the tractor only; if the tractor is not designed to be loaded, the tare weight is that which applies.

For vehicles arriving from another country or from Sardinia carrying documentation certifying the origin of the consignment, the beginning of the ban is postponed by four hours. In the case of a vehicle arriving from abroad with only one driver whose daily rest period, as laid down in regulation EEC 3820/85, coincides with this four hour period, the four hour postponement period will begin at the end of the rest period.

For vehicles travelling to another country, carrying documentation certifying the destination of the consignment, the end of the ban is brought forward by two hours. For vehicles travelling to Sardinia, carrying documentation certifying the destination of the consignment, the end of the ban is brought forward by four hours.

The end of the ban is brought forward by four hours for vehicles heading for the national interports (Bologna, Padua, Verona Quadrante Europe, Turin-Orbassano, Rivalta Scrivia, Trento, Novara, Domodossola and Parma-Fontevivo), intermodal terminals (Busto Arsizio, Milan-Rogoredo and Milan-smistamento) or an airport for the execution of an air freight transport operation, and which are transporting goods destined for export. It applies also to vehicles carrying empty loading units

(containers, swap bodies, semi-trailers) destined for export via the same interports, intermodal terminals or airports, as well as those to be loaded on to trains provided they carry the relevant documentation (shipment orders) certifying the destination of the goods. The same provisions apply to vehicles involved in combined rail-road or sea-road transport provided they carry the relevant documentation certifying the destination of the consignment as well as confirmation of booking or a ticket for the voyage.

For vehicles travelling in Sardinia which have arrived from another region of the national territory and which are carrying documentation certifying the origin of the consignment, the beginning of the ban is delayed by four hours. In order to encourage intermodal transport, the same derogation applies to vehicles travelling in Sicily, which have arrived by ferry from another region of the national territory, with the exception of those arriving from Calabria, provided they carry the relevant documentation certifying the origin of the consignment.

Driving restrictions are not applied to vehicles in Sardinia which are travelling direct to a port for embarkation on a ferry heading for another region of the national territory, provided they are carrying the relevant documentation certifying the destination of the consignment as well as confirmation of booking or a ticket for the ferry. The same derogation applies to vehicles in Sicily which are travelling direct by ferry to another region of the national territory, with the exception of Calabria.

To take account of the traffic problems caused by the upgrading of the Salerno-Reggio Calabria motorway and the difficulties related to ferry operations to and from Calabria, and with the exception of the cases indicated in the two preceding paragraphs, the beginning and the end of the ban are delayed and brought forward respectively by two hours for vehicles arriving from or going to Sicily, provided the drivers are carrying documentation certifying the origin or the destination of the consignment.

With respect to the above regulations, it should be noted that vehicles arriving from or going to the Republic of San Marino or Vatican City are considered to be vehicles arriving from or going to regions within the national territory.

***Exceptions:***

- military, Italian Red Cross and police vehicles;
- vehicles belonging to companies owning roads or having concessions thereon and having urgent reasons for such transport;

- vehicles returning to the company headquarters provided they are at a distance of no more than 50 km from the headquarters when the driving ban begins and that they do not travel on the motorway network.

The following vehicles are also excluded provided they have an authorisation delivered by the Prefect:

- vehicles transporting goods which, due to their nature or to climatic or seasonal factors, are susceptible to rapid deterioration and must be transported rapidly from the place of production to the place of storage or sale, and vehicles used to transport animal feedstuff;
- vehicles transporting goods in cases of absolute necessity or emergency in relation to round-the-clock work;
- agricultural vehicles used for goods transport, travelling on the national road network.

Prefects may also deliver a temporary authorisation, valid not more than four months, to vehicles supplying fairs, markets or cultural events.

### ***Applications for derogation***

Application for derogation must be submitted in good time (at least 10 days in advance) to the prefecture of the province of departure. The prefecture may, after checking the validity and the urgency of the reasons given in relation to local and general road conditions, issue an authorisation showing: the period of validity (which must not exceed six months); the vehicle's registration number; the points of departure and arrival; the route to be followed; the material transported.

For foreign vehicles, applications for exemptions must be addressed by either the supplier or the consignee of the goods to the prefecture of the province of the point of entry into Italy. Prefects must take into consideration, besides reasons of urgency and the perishable nature of the goods, the distance to the final destination, the type of journey and the location of the relevant services at the border. By analogy, for vehicles coming from or heading for Sicily, prefects must take into consideration the difficulties arising from the specific geographical situation of Sicily and, in particular, the time necessary for the ferry crossing.

During periods of driving prohibition, the prefectures on whose territory the customs posts are situated, may authorise, as a permanent measure, vehicles arriving from abroad to drive as far as the parking areas (autoports) situated near the borders.

**Exceptions**

1. The transport or towing of damaged or broken down vehicles. In such cases, only a company registered for this type of activity may move the vehicle to the nearest suitable place.
2. Humanitarian aid transport.
3. Vehicles involved in combined transport operations (rail or sea)
  - vehicles travelling to a rail or ferry terminal if there is a possibility that by respecting the driving restrictions the vehicle would not arrive at the terminal in time; the driver must prove this by means of the relevant documentation;
  - vehicles travelling from a rail or ferry terminal to the nearest border crossing, if the vehicle can complete the transport operation in the other country.
4. The refrigerated transport of perishable goods.
5. The transport of fresh flowers.
6. Empty vehicles which are travelling to a place where they will be loaded or from a place where they have been unloaded provided this can be proved by means of the relevant documentation.

**Points to note**

Before the beginning of the restriction, drivers must immobilise their vehicles in suitable parking places at the roadside.

During the period of the restriction, foreign-registered vehicles of over 7.5t GVW or over 14m in length may not enter Slovenia, but should use the parking areas in the border zone.

In winter conditions, it is forbidden to drive combination vehicles, vehicles transporting dangerous goods, as well as exceptional loads. Even if these vehicles have the compulsory winter equipment, entry into Slovenia is not permitted while winter conditions prevail. This does not apply to vehicles registered in Slovenia if there is a suitable parking place at the border crossing allowing these vehicles to be removed from the traffic. It is the driver's responsibility to stop at the first suitable off-road parking area until the roads have been cleared.

In the case of high winds, trucks, combination vehicles, buses and coaches are prohibited on certain road sections. These restrictions are signposted.
