In the case of multiple deliveries, these minimum loading conditions no longer apply beyond the first point of delivery provided that further deliveries occur within a zone restricted to the region of origin of the first delivery point and the neighbouring departments or the region of origin of the first delivery point and adjacent regions within a distance of 150 kilometres.

The vehicles concerned are not subject to minimum load conditions and may travel empty if their movements consist of loading operations restricted to a zone consisting of the region of origin and its neighbouring departments or the region of origin and adjacent regions within a distance of 150 kilometres.

Vehicles transporting racehorses are not subject to minimum load conditions.

Unless other provisions apply, for the purposes of implementation of the provisions of this article, the region of origin is the region of departure of the vehicle (or of entry into France) for the transport operation concerned.

Art.5 Short-term derogations

Derogations to the driving restrictions laid down in articles 1 and 2 above, so-called short-term prefectural derogations, may be granted for

1. vehicles performing a transport operation considered as indispensable and urgent, namely those engaged in a goods transport operation to meet the needs caused by exceptional circumstances such as drought, flooding, or natural or humanitarian catastrophe;
2. vehicles engaged in waste transport for the clearing of rubbish dumps or slaughterhouses;

The corresponding authorisations are issued by the Prefect of the department of departure for a period not exceeding the duration of the prohibition for which the derogations are requested. For transport operations originating outside France, the authorisation is issued by the Prefect of the department of entry into France.

Art.6 Long-term derogations

Derogations to the driving restrictions laid down in articles 1 and 2 above, so-called long-term prefectural derogations, may be granted for

1. vehicles necessary to ensure the round-the-clock operation of certain production services or units. If dangerous goods transport is involved, these authorisations can only be issued subject to the approval of the interministerial committee on the transport of dangerous goods.
2. vehicles contributing to the provision of public services or emergency services to meet immediate collective needs.

Authorisations for the transport operations indicated in point 1 are issued by the Prefect of the department of loading (or of entry into France) subject to the approval of the Prefect of the department of destination (or of exit from France).

Authorisations for the transport operations indicated in point 2 are issued by the Prefect of the department of departure.

Long-term authorisations are issued for a maximum of one year.

Art.7 Lifting of restrictions - border zones

In order to mitigate the consequences of the lack of harmonisation of traffic bans with those of neighbouring states, the Prefects of border departments have the possibility of granting derogations to the driving restrictions foreseen in articles 1 and 2 above.

Art.8 Lifting of restrictions - exceptional circumstances

In the case of exceptional circumstances, if the vehicles mentioned in article 1 have been immobilised during the 12 hours preceding the beginning of a period of restriction foreseen in articles 1, 2 or 3 above, the departmental Prefects may, in coordination with the Prefects of the neighbouring departments, authorise them to travel during all or part of the period of restriction within a specific zone.

Art.9 Conditions of use of derogations

For any vehicle granted a permanent derogation or a short or long-term individual prefectural derogation, the person in charge of the vehicle must be able to prove to the officers responsible for road traffic checks that the transport operation complies with the provisions of the derogation concerned.

The authorisation must be kept on board the vehicle. For it to be valid, it must be completed by the holder prior to the vehicle's departure, indicating the date of the transport operation and the vehicle's registration number.

An authorisation may be withdrawn by the issuing authority if the holder does not observe its terms of use or has provided erroneous information in order to obtain it.
